-  [/in/vm9118](#)

### CERTIFICATES

- Introduction to Computer Science**  
Harvard University
- Introduction to Programming with Python**  
Harvard University
- Technical Support Fundamentals**  
Google
- J.P. Morgan's Software Engineering simulation**
- CCNA Exploration Program**  
Cisco
- CCNP ROUTE: Implementing IP Routing**  
Cisco
- IT Essentials - PC Hardware and Software**  
Cisco

### EDUCATION

**Las Americas Institute of Technology (ITLA)**

**Network and System Administration**

January 2012

### LANGUAGES

English - Fluent  
Spanish: Native

### SKILLS

- FRONT-END:** React.js | JavaScript | HTML5 | CSS | jQuery | AJAX/Axios | REST.API | Bootstrap | Formik | Yup
- MIDDLE-TIER:** C# | .Net | .Net Core | ADO.Net | ASP.Net
- BACK-END:** Python | SQL Server Management Studio
- TOOLS:** Git | Github | Slack | Trello | Postman | Visual Studio Code | Visual Studio
- SOFT SKILLS:** Critical Thinking | Self-learning | Troubleshooting | Leadership | Agile Methodologies

### WORK EXPERIENCE

#### Full-Stack Software Engineer

Tabi

January 2024 - Present

Tabi is a platform that transforms the dining and event experiences, offering seamless pre-ordering services for both consumers and vendors, optimizing efficiency and satisfaction for venues and events by avoiding long lines and helping the user focus on what really matters: enjoyment.

- Developed Full Stack features with React components using JavaScript and RESTful APIs for Checkout and Reservations in .NET / C#.
- Implemented Stripe API integration for credit card payments. Created React Components for Front End, and .NET/C# and SQL for Back End.
- Designed and implemented a React Dashboard component and .Net / C# methods to display the vendor's balance and pending payment by fetching data from the Stripe API.
- Created and implemented all the React components, .Net API Controllers, Classes and Methods, SQL tables and Stored Procedures (Queries). Front End and Back End.
- Practiced AGILE methodologies with daily stand-ups, weekly sprints, frequent code reviews, and regular code talks.
- Utilized Git for version control and GitHub workflows for streamlined collaboration and deployment processes.
- Developed .NET Core APIs adhering to RESTful design principles, facilitating smooth communication between client and server.
- Optimized SQL queries and stored procedures to enhance data retrieval and manipulation efficiency.
- Established user authentication and authorization mechanisms to ensure secure access to sensitive data.

#### Licensed Relationship Banker

Manager on Duty

JPMorgan Chase

November 2021 - December 2023

- As Manager on Duty, led customer-focused initiatives, collaborating with team members to maintain a 98% satisfaction rate and ensure smooth day-to-day operations.
- Coordinated with colleagues in English and Spanish to ensure 100% adherence to company policies, demonstrating leadership in maintaining standards and teamwork in problem-solving.
- Partnered with financial experts to enhance productivity by 150%, showcasing leadership and teamwork.

#### Licensed Financial Service Representative

Supervisor

TD Bank

September 2018 - November 2021

- Demonstrated leadership by consistently earning the title of "Top Performer" through providing expert financial advice and fostering teamwork among colleagues to achieve exceptional results.
- Collaborated effectively within a team environment to provide training and generate referrals, resulting in significant growth in asset management, showcasing strong leadership and teamwork abilities.
- Played a pivotal role in meeting and exceeding targets for new account openings and financial transactions, demonstrating leadership qualities and adept teamwork essential for success in a dynamic environment.
